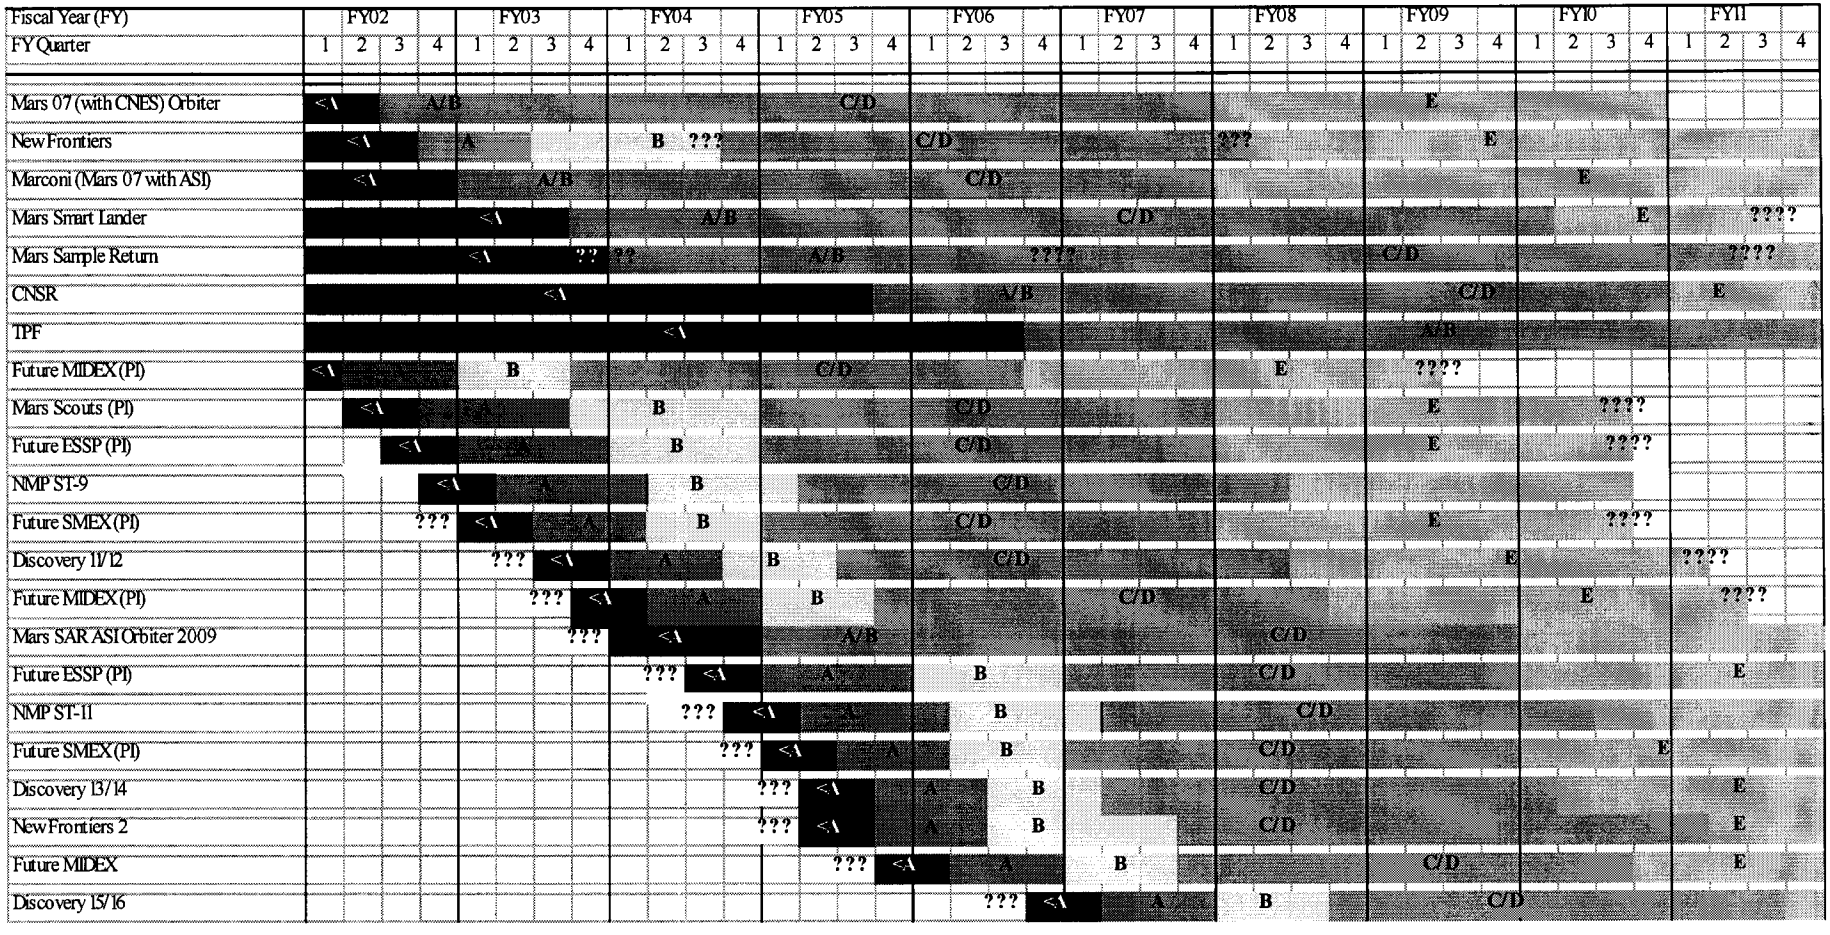
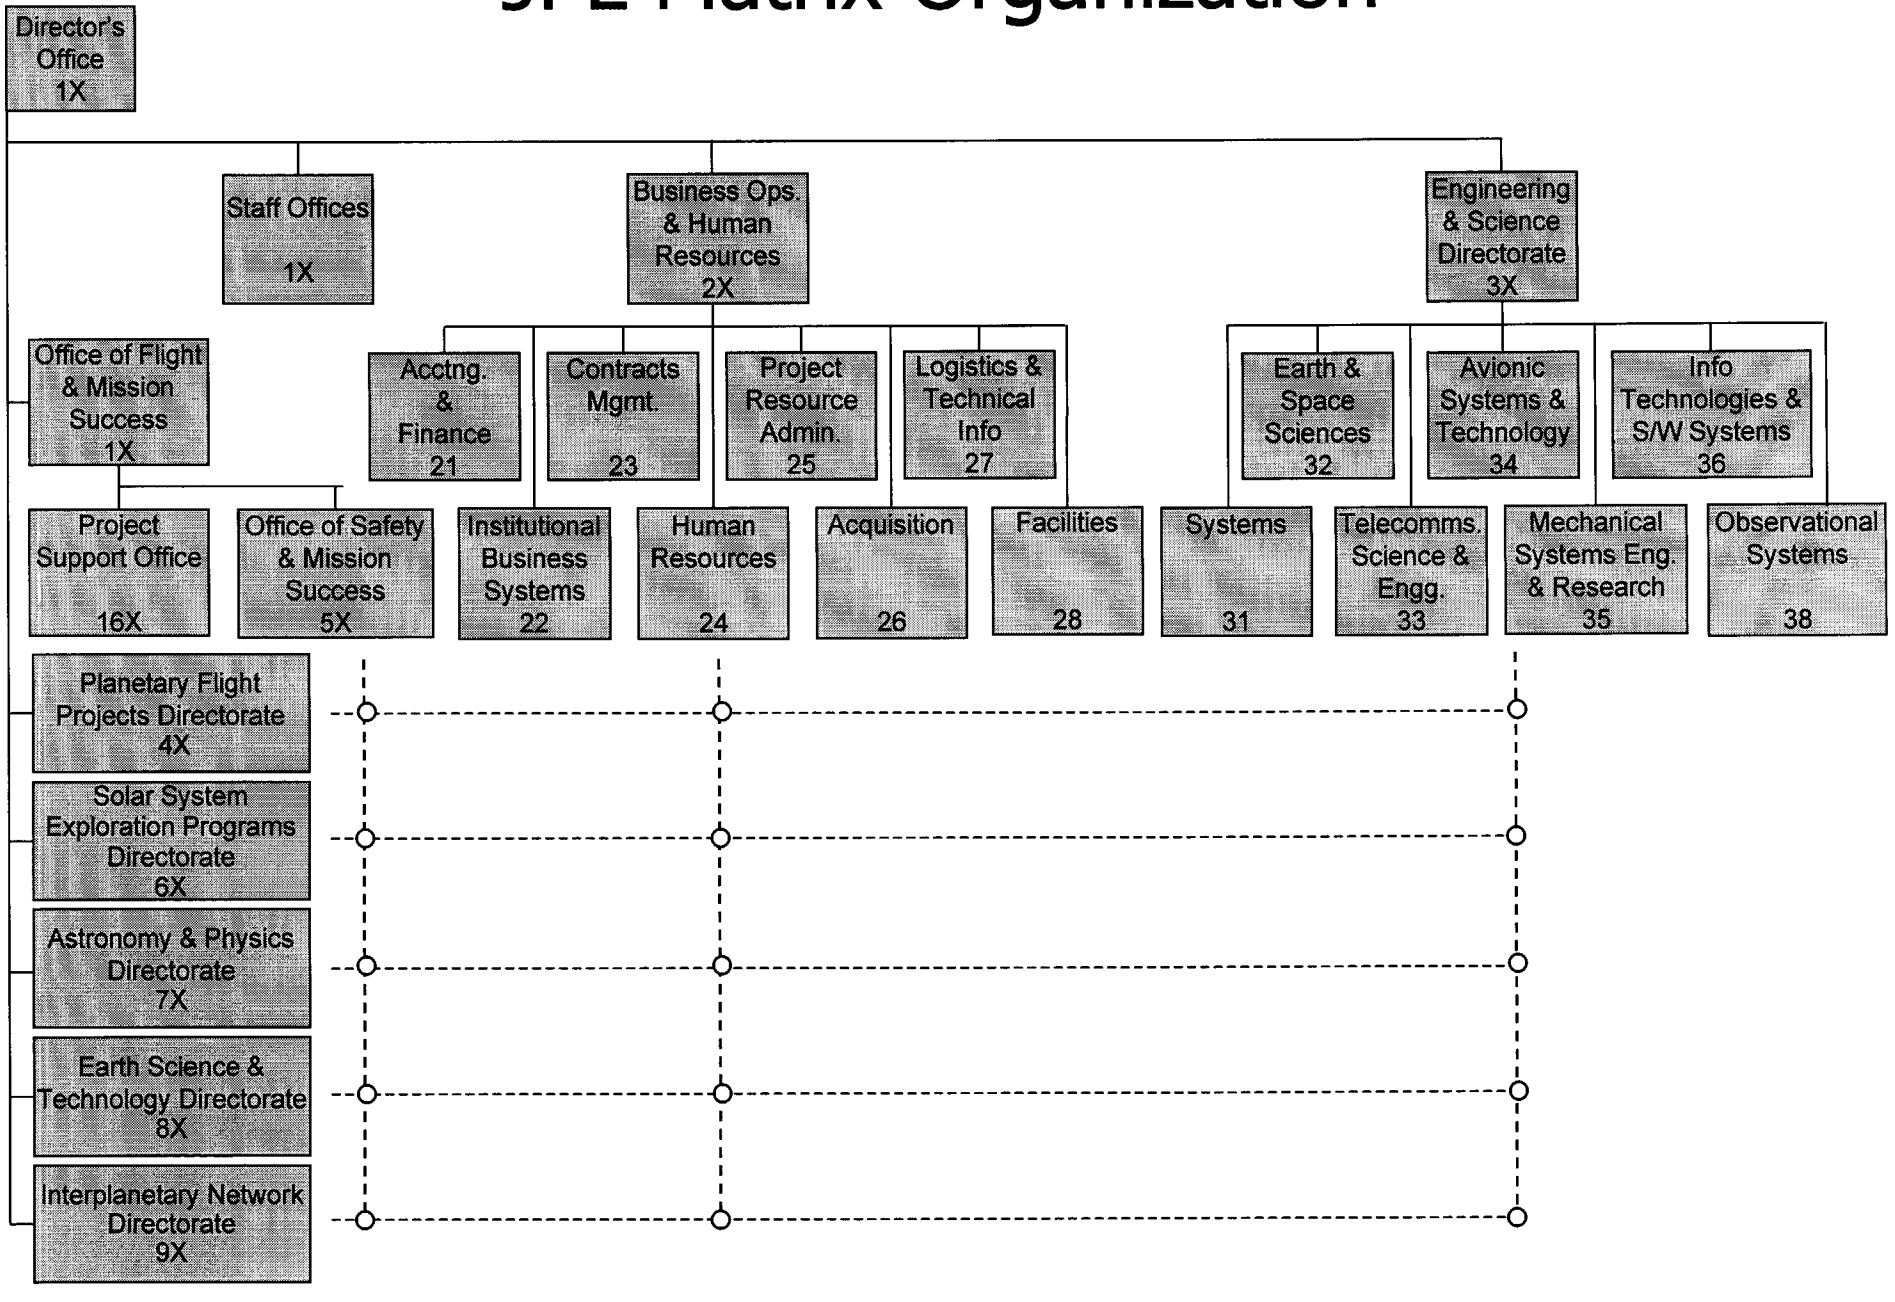
JPL Mission Planning



JPL Matrix Organization

- Program Directorates:
  - Provide sponsor/JPL interface
  - Responsibility for execution of programs and projects
  - Establish project/program offices to manage work
  - Contracts for system level work
- Engineering and Science Directorate
  - Provides homes for engineering and science personnel in a wide variety of technical disciplines
  - Assigns people and organizations to projects and tasks
  - Maintains competencies, capabilities, and technical processes
  - Manages work at task level
  - Contracts for subsystem and instrument technology and development

JPL Matrix Organization



JPL Contracting Model

	Work Elements	JPL Responsible Organization	Mission
Competed Missions	Systems	Solar System Exploration Programs Directorate - 6X	Discovery
Competed Missions	Systems	Solar System Exploration Programs Directorate - 6X	Mars Scout
Competed Missions	Systems	Solar System Exploration Programs Directorate - 6X	New Frontier
Competed Missions	Systems	Astronomy & Physics Directorate - 7X	Explorers
Competed Missions	Systems	Earth Science & Technology Directorate - 8X	Earth System Science Pathfinder
Assigned Missions	Systems	Planetary Flight Projects Directorate - 4X	Solar System Exploration
Assigned Missions	Systems	Astronomy & Physics Directorate - 7X	Astrophysics
Assigned Missions	Systems	Earth Science & Technology Directorate - 8X	Earth Science
Assigned or Competed Missions	Subsystems & Instruments	Engineering and Science Directorate - 3X	All
Assigned or Competed Missions	Technology	Engineering and Science Directorate - 3X	All
